Safety Data Sheet (SDS)

Revision Number: 4.0		Last updated 24 July 2019
1. Product and Company Identification	<u>on</u>	
Product Name:	[Lys(Ac)14/18/23/27]-Histone H3 (1-30)-GGK(Biotin) H - ART KQT ARK STG GK(Ac)A PRK(Ac) QLA TK(Ac)A ARK(Ac) SAP GGK(Biotin) - OH	
Manufacturer/Supplier:	Kaneka Eur Rue du Bois Tel. +32-4-3 Fax. +32-4- E-mail info	ec.com pus Drive A 94555 1-9560 1-9572 ce@anaspec.com ogentec SA, Saint Jean 5 4102 Seraing Belgium 8727400 3727500 @eurogentec.com ogentec Helpdesk
Catalog Number	AS-65227-1	
Relevant identified uses of the substance/preparation and uses advised against	For laborate	ry use only.
Emergency information		act the regional Eurogentec representation in your Kaneka Eurogentec S.A. directly (from 8 am to 6
protective equipment (PPE) when hand have not been thoroughly investigated. GHS Hazard Classification:	lling chemicals	dling all chemicals with caution. Use proper To our knowledge, the hazards of this material
•	-	angerous substance according to the GHS
GHS Signal Words: None		

GHS Hazard Statements: None

GHS Precautionary Statements: None

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

3. Composition

Ingredients/Components:

Chemical Name: [Lys(Ac)14/18/23/27]-Histone H3 (1-30)-GGK(Biotin)

H - ART KQT ARK STG GK(Ac)A PRK(Ac) QLA TK(Ac)A ARK(Ac) SAP

GGK(Biotin) - OH

Molecular formula: NA Molecular weight: 3802.6

CAS-No NA EC-No NA

4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area. Encourage patient to blow nose to ensure clear passage of breathing. If irritation or discomfort persists seek medical attention.
Ingestion:	If swallowed do NOT induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink. Seek medical advice.
Skin:	If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation.
Eyes:	If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. If pain persists or recurs seek medical attention.

T	<u>sures</u>	TXX		
Extinguishing media:		Water spray or fog.		
		Alcohol resistant foam. Dry chemical powder.		
		BCF (where regulations permit).		
		Carbon dioxide		
		Caroon dioxide		
Special firefighting procedures:		Alert Emergency Responders and tell them location and nature of		
		hazard.		
		Wear breathing apparatus plus protective gloves.		
		Prevent, by any means available, spillage from entering drains or water		
		course.		
		Use water delivered as a fine spray to control fire and cool adjacent		
		area.		
		DO NOT approach containers suspected to be hot. Cool fire exposed containers with water spray from a protected location.		
		If safe to do so, remove containers from path of fire.		
		Equipment should be thoroughly decontaminated after use.		
		Equipment should be thoroughly decontainmated after use.		
Unusual fire and explosions hazards:		Emits toxic fumes under fire conditions		
6. Accidental Release				
Spill response		Remove all ignition sources.		
		all spills immediately.		
		atact with skin and eyes. Personal contact by using protective equipment.		
		Use dry clean up procedures and avoid generating dust. Place in a suitable, labeled container for waste disposal		
1				
Containment	Avoid all	personal contact, including inhalation.		
Containment		personal contact, including inhalation. ective clothing when risk of exposure occurs.

8. Exposure Controls	Personal Protectio	<u>on</u>								
Engineering controls	even when particul mutual friction.	ocal exhaust ventilation is required where solids are handled as powders or crystals; wen when particulates are relatively large, a certain proportion will be powdered by								
	particulates in the workplace. If in spite of local exhaust an adverse concentration of the substance in air could occur, respiratory protection should be considered. Such protection might consist of: (a): particle dust respirators, if necessary, combined with an absorption cartridge; (b): filter respirators with absorption cartridge or canister of the right type; (c): fresh-air hoods or masks Build-up of electrostatic charge on the dust particle, may be prevented by bonding and									
							grounding. Powder handling equipment such as dust collectors, dryers and mills may require			
							on measures such as explosion venting.			
	Air contaminants generated in the workplace possess varying "escape" velocities which, in turn, determine the "capture velocities" of fresh circulating air required to efficiently									
DDC	remove the contam									
PPE	Use personal prote	ective equipment								
9. Physical and Chemic	nal Pranarties									
Physical State	Solid									
Odour	Not available									
Solubility in Water	Not available									
Specific Gravity	Not available									
pH	Not available									
Boiling Point	Not available									
Melting Point	Not available									
Flash Point	N/A									
Vapor Pressure:	N/A									
Vapor Density:	N/A									
10. Stability and Reac	tivity									
		No data available								
•		No data available								
		COx, NOx when burned								
	losed in a dry well-v	rentilated place. Store in -20 °C, dry refrigerator.								
11. Toxicological Info	rmation									
RTECS Number		N/A								
Toxicity		No information available.								
Health Hazards		Although ingestion is not thought to produce harmful effects, the material may still be damaging to the								
		health of the individual following ingestion, especially								
		where pre-existing organ (e.g. liver, kidney)								
		damage is evident. In an occupational setting however, ingestion of insignificant quantities is not thought to be								
		cause for concern.								
Potential Hazards		Not available								
		12.100 @ 14.11.11.10.10								

Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity: No information available

12. Ecological Information

No information available.

13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
