Relevant identified uses of the substance/preparation and uses advised against	For laboratory	use only.	
Emergency information		the regional Eurogentec rep neka Eurogentec S.A. direct	
2. Hazards Identification			
Emergency Overview: We do handling all chemicals with cautio protective equipment (PPE) when hand To our knowledge, the hazards of this not been thoroughly investigated.	dling chemicals.	May elicit an immune response suc respiratory tract irritation. Wear PF	

GHS Hazard Classification:

GHS Physical Hazards: Not a dangerous substance according to the GHS

GHS Health and Environmental Hazards

GHS Signal Words: None

GHS Hazard Statements: H303, H313, Maybe harmful if swallowed or in contact with skin. Wear PPE.

GHS Precautionary Statements: P302, P340 May be respiratory irritant if inhaled. May cause respiratory tract irritation.

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

3. Composition

Ingredients/Components:

Chemical Name: MBP (84-96), mouse; MBP (86-98), guinea pig; MBP (87-99), human

VHF FKN IVT PRT P Molecular formula: NA Molecular weight: 1555.9

CAS-No NA EC-No NA

4. First Aid Measures

Inhalation: If dust is inhaled, remove from contaminated area.

	Encourage natient to	blow nose to ensure clear passage of breathing.	
Ingestion:	If irritation or discomfort persists seek medical attention. If swallowed do NOT induce vomiting.		
ingesiton.	If vomiting occurs, lean patient forward or place on left side (head-down position, if po		
		and prevent aspiration.	
	Observe the patient carefully. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfort		
	Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.		
	Seek medical advice.		
Skin:			
Skin.	If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Soals medical attention in event of imitation.		
Enge	Seek medical attention in event of irritation.		
Eyes:	If this product comes in contact with the eyes: Wash out immediately with fresh running water.		
		gation of the eye by keeping eyelids apart and away from eye and moving the	
		ly lifting the upper and lower lids.	
	in pain persists or rec	urs seek medical attention.	
5. Fire Fight	ting Measures		
Extinguishing	n modia:	Water spray or fog.	
Extinguishing	з теши.	Alcohol resistant foam.	
		Dry chemical powder.	
		BCF (where regulations permit).	
		Carbon dioxide	
		Carbon dioxide	
Special firefis	ghting procedures:	Alert Emergency Responders and tell them location and nature of	
	, or	hazard.	
		Wear breathing apparatus plus protective gloves.	
		Prevent, by any means available, spillage from entering drains or water	
		course.	
		Use water delivered as a fine spray to control fire and cool adjacent	
		area.	
		DO NOT approach containers suspected to be hot.	
		Cool fire exposed containers with water spray from a protected	
		location.	
		If safe to do so, remove containers from path of fire.	
		Equipment should be thoroughly decontaminated after use.	
		Equipment should be thoroughly decontainmated after use.	
Unusual fire	and explosions hazards:	Emits toxic fumes under fire conditions	
	and empressions necessary	2	
		<u>'</u>	
6. Accidenta	al Release Measures		
Spill response		ve all ignition sources.	
		up all spills immediately.	
	Avoid	contact with skin and eyes.	
		ol personal contact by using protective equipment.	
		y clean up procedures and avoid generating dust.	
		n a suitable, labeled container for waste disposal	
Containment		all personal contact, including inhalation.	
		protective clothing when risk of exposure occurs.	
		a well-ventilated area.	

	DO NOT enter confined spaces until atmosphere has been checked.
	DO NOT allow material to contact humans, exposed food or food utensils.
	Avoid contact with incompatible materials.
	When handling, DO NOT eat, drink or smoke.
	Keep containers securely sealed when not in use.
	Avoid physical damage to containers.
	Always wash hands with soap and water after handling.
	Use good occupational work practice.
	Empty containers may contain residual dust which has the potential to accumulate
	following settling. Such dusts may explode in the presence of an appropriate
	ignition source.
	Do NOT cut, drill, grind or weld such containers
PPE	Use personal protective equipment

7. Handling and Storage

Store at -20 °C desiccated and protected from light. Store away from oxidizing agent.

8. Exposure Controls / Personal Protection

Engineering controls	Local exhaust ventilation is required where solids are handled as powders or crystals;
	even when particulates are relatively large, a certain proportion will be powdered by
	mutual friction.
	Exhaust ventilation should be designed to prevent accumulation and re-circulation of
	particulates in the workplace.
	If in spite of local exhaust an adverse concentration of the substance in air could occur, respiratory protection should be considered. Such protection might consist of:
	(a): particle dust respirators, if necessary, combined with an absorption cartridge;
	(b): filter respirators with absorption cartridge or canister of the right type;
	(c): fresh-air hoods or masks
	Build-up of electrostatic charge on the dust particle, may be prevented by bonding and
	grounding.
	Powder handling equipment such as dust collectors, dryers and mills may require
	additional protection measures such as explosion venting.
	Air contaminants generated in the workplace possess varying "escape" velocities which,
	in turn, determine the "capture velocities" of fresh circulating air required to efficiently
	remove the contaminant.
PPE	Use personal protective equipment

9. Physical and Chemical Properties

Physical State	Solid
Odour	Not available
Solubility in Water	Not available
Specific Gravity	Not available
pH	Not available
Boiling Point	Not available
Melting Point	Not available
Flash Point	N/A
Vapor Pressure:	N/A
Vapor Density:	N/A

10. Stability and Reactivity	
Thermal Decomposition	No data available
Dangerous Products of Decomposition	No data available
Dangerous Reactions	COx, NOx when burned

Keep container tightly closed in a dry well-ventilated place. Store in -20°C refrigerator.

11. Toxicological Information

RTECS Number	N/A
Toxicity	No information available.
Health Hazards	Although ingestion is not thought to produce harmful effects, the material may still be damaging to the health of the individual following ingestion, especially where pre-existing organ (e.g. liver, kidney) damage is evident. In an occupational setting however, ingestion of insignificant quantities is not thought to be cause for concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity: No information available

12. Ecological Information

No information available.

13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
