Safety Data Sheet (SDS)

Revision Number: 2.0	Last updated 25 July 2019
1. Product and Company Ider	<u>ntification</u>
Product Name:	Spexin-2 (53-70), human/mouse/rat
	FIS DQS RRK DLS DRP LPE
Manufacturer/Supplier:	AnaSpec, Inc.
	www.anaspec.com
	34801 Campus Drive
	Fremont, CA 94555
	Tel: 510-791-9560
	Fax: 510-791-9572
	Email: service@anaspec.com
Catalog Number	AS-65586

2. Hazards Identification

Emergency Overview: We do recommend handling all chemicals with caution. Use proper protective equipment when handling chemicals. To our knowledge, the hazards of this material have not been thoroughly investigated.

GHS Hazard Classification:

GHS Physical Hazards: Not a dangerous substance according to the GHS

GHS Health and Environmental Hazards

GHS Signal Words: None

GHS Hazard Statements: H303, H313, Maybe harmful if swallowed or in contact with skin. Wear PPE.

GHS Precautionary Statements: P302, P340 May be respiratory irritant if inhaled. May cause respiratory tract

irritation.

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

3. Composition

Ingredients/Components:

Chemical Name: Spexin-2 (53-70), human/mouse/rat

FIS DQS RRK DLS DRP LPE
Molecular formula: NA

Molecular formula: NA Molecular weight: 2159.5

CAS-No NA EC-No NA

4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area.		
	Encourage patient to blow nose to ensure clear passage of breathing.		
	If irritation or discomfort persists seek medical attention.		
Ingestion:	If swallowed do NOT induce vomiting.		
	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to		
	maintain open airway and prevent aspiration.		
	Observe the patient carefully.		
	Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably		
	drink.		
	Seek medical advice.		
Skin:	If skin or hair contact occurs:		
	Flush skin and hair with running water (and soap if available).		
	Seek medical attention in event of irritation.		
Eyes:	If this product comes in contact with the eyes:		
	Wash out immediately with fresh running water.		
	Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the		
	eyelids by occasionally lifting the upper and lower lids.		
	If pain persists or recurs seek medical attention.		

Extinguishing media:		Water spray or fog.
		Alcohol resistant foam.
		Dry chemical powder.
		BCF (where regulations permit).
		Carbon dioxide
Special firefighting proc	redures:	Alert Emergency Responders and tell them location and nature of
special firefighting procedures.		hazard.
		Wear breathing apparatus plus protective gloves.
		Prevent, by any means available, spillage from entering drains or water
		course.
		Use water delivered as a fine spray to control fire and cool adjacent
		DO NOT approach containers suspected to be het
		DO NOT approach containers suspected to be hot.
		Cool fire exposed containers with water spray from a protected location.
		If safe to do so, remove containers from path of fire.
		Equipment should be thoroughly decontaminated after use.
		Equipment should be thoroughly decontainmated after use.
Unusual fire and explosi	ions hazards:	Emits toxic fumes under fire conditions
6. Accidental Release	<u>Measures</u>	
Spill response		l ignition sources.
		ll spills immediately.
		tact with skin and eyes.
		rsonal contact by using protective equipment.
		ean up procedures and avoid generating dust.
		suitable, labeled container for waste disposal
Containment		personal contact, including inhalation.
		ective clothing when risk of exposure occurs.
		ell-ventilated area.
	DO NOT enter confined spaces until atmosphere has been checked.	
	DO NOT a	illow material to contact humans, exposed food or food utensils.
		tact with incompatible materials.
		dling, DO NOT eat, drink or smoke.
		niners securely sealed when not in use.
		sical damage to containers.
	Always wash hands with soap and water after handling.	
	Use good occupational work practice.	
	Empty containers may contain residual dust which has the potential to accumulate	
		settling. Such dusts may explode in the presence of an appropriate
	ignition so	urce. ut, drill, grind or weld such containers
	DONOTE	at, arm, grind or weld such containers
PPE	Use person	nal protective equipment

8. Exposure Controls	/ Personal Protection	<u>n</u>		
Engineering controls Local exhaust ventilation is even when particulates are remutual friction. Exhaust ventilation should be particulates in the workplace. If in spite of local exhaust are respiratory protection should (a): particle dust respirators, (b): filter respirators with ab (c): fresh-air hoods or masks. Build-up of electrostatic chargerounding. Powder handling equipment additional protection measure. Air contaminants generated in turn, determine the "capture of the same of the sam		exhaust an adverse concentration of the substance in air could occur, ion should be considered. Such protection might consist of: espirators, if necessary, combined with an absorption cartridge; rs with absorption cartridge or canister of the right type; s or masks estatic charge on the dust particle, may be prevented by bonding and quipment such as dust collectors, dryers and mills may require on measures such as explosion venting. generated in the workplace possess varying "escape" velocities which, the "capture velocities" of fresh circulating air required to efficiently		
PPE		remove the contaminant. Use personal protective equipment		
9. Physical and Chemi <i>Physical State</i>	Solid			
Odour W	Not available			
Solubility in Water Specific Gravity	Not available Not available			
<u> specific Gravity</u> pH	Not available			
Boiling Point	Not available			
Melting Point	Not available			
Flash Point	N/A			
Vapor Pressure: N/A				
Vapor Density:				
10. Stability and Read	<u>etivity</u>			
Thermal Decomposition	n	No data available		
Dangerous Products of	Decomposition	No data available		
Dangerous Reactions		COx, NOx when burned		
. 0,	·	entilated place. Store in -20°C refrigerator.		
11. Toxicological Info	<u>rmation</u>			
RTECS Number		N/A		
Toxicity		No information available.		

Health Hazards	Although ingestion is not thought to produce harmful
	effects, the material may still be damaging to the
	health of the individual following ingestion, especially
	where pre-existing organ (e.g. liver, kidney)
	damage is evident. In an occupational setting however,
	ingestion of insignificant quantities is not thought to be
	cause for concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity:

No information available

12. Ecological Information

No information available.

13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed

to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
