Safety Data Sheet (SDS)

Revision Number: 4.0	Last updated 24 July 2019			
1. Product and Company Identification				
Product Name:	TAT - HA2 Fusion Peptide H - RRR QRR KKR GGD IMG EWG NEI FGA IAG FLG - OH			
Manufacturer/Supplier:	AnaSpec, Inc. www.anaspec.com 34801 Campus Drive Fremont, CA 94555 Tel: 510-791-9560 Fax: 510-791-9572 Email: service@anaspec.com Kaneka Eurogentec SA, Rue du Bois Saint Jean 5 4102 Seraing Belgium Tel. +32-4-3727400 Fax. +32-4-3727500 E-mail info@eurogentec.com Kaneka Eurogentec Helpdesk Tel. +32-4-3727665			
Catalog Number Relevant identified uses of the	AS-64876 For laboratory use only.			
substance/preparation and uses advised against				
Emergency information	Please contact the regional Eurogentec representation in your country or Kaneka Eurogentec S.A. directly (from 8 am to 6 pm)			
protective equipment (PPE) when hand have not been thoroughly investigated. GHS Hazard Classification: GHS Physical Hazards: Not a day	commend handling all chemicals with caution. Use proper dling chemicals. To our knowledge, the hazards of this material angerous substance according to the GHS tards: Not a dangerous substance according to the GHS			
GHS Signal Words: None				

GHS Hazard Statements: None

GHS Precautionary Statements: None

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

3. Composition

Ingredients/Components:

Chemical Name: TAT - HA2 Fusion Peptide

H - RRR QRR KKR GGD IMG EWG NEI FGA IAG FLG - OH

Molecular formula: NA Molecular weight: 3433.2

CAS-No NA EC-No NA

4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area.
	Encourage patient to blow nose to ensure clear passage of breathing.
	If irritation or discomfort persists seek medical attention.
Ingestion:	If swallowed do NOT induce vomiting.
	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.
	Observe the patient carefully.
	Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably
	drink.
	Seek medical advice.
Skin:	If skin or hair contact occurs:
	Flush skin and hair with running water (and soap if available).
	Seek medical attention in event of irritation.
Eyes:	If this product comes in contact with the eyes:
	Wash out immediately with fresh running water.
	Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the
	eyelids by occasionally lifting the upper and lower lids.
	If pain persists or recurs seek medical attention.

TT .* * T *	<u>ures</u>	W. C		
Extinguishing media:		Water spray or fog.		
		Alcohol resistant foam. Dry chemical powder.		
		BCF (where regulations permit).		
		Carbon dioxide		
		Caroon dioxide		
Special firefighting procedures:		Alert Emergency Responders and tell them location and nature of		
		hazard.		
		Wear breathing apparatus plus protective gloves.		
		Prevent, by any means available, spillage from entering drains or water		
		Course.		
		Use water delivered as a fine spray to control fire and cool adjacent		
		DO NOT approach containers suspected to be hot.		
		Cool fire exposed containers with water spray from a protected location.		
i		If safe to do so, remove containers from path of fire.		
		Equipment should be thoroughly decontaminated after use.		
		Equipment should be unstanging accommunitied until user		
Unusual fire and explosions hazards:		Emits toxic fumes under fire conditions		
6. Accidental Release	Measures			
Spill response		Remove all ignition sources.		
		Clean up all spills immediately.		
		tact with skin and eyes.		
		ersonal contact by using protective equipment.		
	II lse dry cl	Use dry clean up procedures and avoid generating dust.		
	Place in a	suitable, labeled container for waste disposal		
Containment	Place in a Avoid all	suitable, labeled container for waste disposal personal contact, including inhalation.		
Containment	Place in a Avoid all j Wear prote	suitable, labeled container for waste disposal personal contact, including inhalation. ective clothing when risk of exposure occurs.

8. Exposure Controls / Pe	ersonal Protection					
e n	ocal exhaust ventilation is required where solids are handled as powders or crystals; ven when particulates are relatively large, a certain proportion will be powdered by utual friction.					
			designed to prevent accumulation and re-circulation of			
	particulates in the workplace. If in spite of local exhaust an adverse concentration of the substance in air could occur, respiratory protection should be considered. Such protection might consist of:					
(:	 (a): particle dust respirators, if necessary, combined with an absorption cartridge; (b): filter respirators with absorption cartridge or canister of the right type; (c): fresh-air hoods or masks Build-up of electrostatic charge on the dust particle, may be prevented by bonding and grounding. Powder handling equipment such as dust collectors, dryers and mills may require additional protection measures such as explosion venting. 					
			the workplace possess varying "escape" velocities which,			
		-	e velocities" of fresh circulating air required to efficiently			
	emove the contamir					
PPE U	se personal protect	ive equip	ment			
9. Physical and Chemical	Properties					
Physical State						
Odour	White Powder					
Solubility in Water	Not available tter Not available					
Specific Gravity	Not available					
pH	Not available Not available					
Boiling Point	Not available Not available					
Melting Point	Not available					
Flash Point	N/A					
Vapor Pressure:	N/A					
Vapor Density:	N/A					
10. Stability and Reactivi	fv.					
Thermal Decomposition	<u>-,-</u>	No data	available			
*			No data available			
Dangerous Reactions			COx, NOx when burned			
Dungerous Reactions		COX, 110	ox when burned			
Keep container tightly close	ed in a dry well-ver	ntilated pl	lace. Store in -20 °C, dry refrigerator.			
11. Toxicological Informa	ation					
	ILIVII		INT/A			
RTECS Number			N/A No information available.			
Toxicity Health Hazards			Although ingestion is not thought to produce harmful			
11eann 11azaras			effects, the material may still be damaging to the			
			health of the individual following ingestion, especially			
			where pre-existing organ (e.g. liver, kidney)			
			damage is evident. In an occupational setting however,			
			ingestion of insignificant quantities is not thought to be			
Dotontial Hazanda			cause for concern.			
Potential Hazards			Not available			

Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity: No information available

12. Ecological Information

No information available.

13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
