protective equipment (PPE) when hand have not been thoroughly investigated. GHS Hazard Classification: GHS Physical Hazards: Not a d	lling chemicals angerous substa	dling all chemicals with caution. Use proper . To our knowledge, the hazards of this material ance according to the GHS angerous substance according to the GHS	

GHS Hazard Statements: None

GHS Precautionary Statements: None

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

3. Composition

Ingredients/Components:

Chemical Name: PACAP (1-38), amide, human, ovine, rat

H - HSD GIF TDS YSR YRK QMA VKK YLA AVL GKR YKQ RVK NK -

NH2

Molecular formula: NA Molecular weight: 4534.5

CAS-No NA EC-No NA

4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area. Encourage patient to blow nose to ensure clear passage of breathing. If irritation or discomfort persists seek medical attention.
Ingestion:	If swallowed do NOT induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink. Seek medical advice.
Skin:	If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation.
Eyes:	If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. If pain persists or recurs seek medical attention.

course. Use water delivered as a fine spray to control fire and cool adjacent area. DO NOT approach containers suspected to be hot.	5. Fire Fighting Meas	<u>sures</u>		
hazard. Wear breathing apparatus plus protective gloves. Prevent, by any means available, spillage from entering drains or wa course. Use water delivered as a fine spray to control fire and cool adjacent area. DO NOT approach containers suspected to be hot. Cool fire exposed containers with water spray from a protected local If safe to do so, remove containers from path of fire. Equipment should be thoroughly decontaminated after use. Unusual fire and explosions hazards: Emits toxic fumes under fire conditions 6. Accidental Release Measures Spill response Remove all ignition sources. Clean up all spills immediately. Avoid contact with skin and eyes. Control personal contact by using protective equipment. Use dry clean up procedures and avoid generating dust. Place in a suitable, labeled container for waste disposal Containment Avoid all personal contact, including inhalation. Wear protective clothing when risk of exposure occurs. Use in a well-ventilated area. DO NOT enter confined spaces until atmosphere has been checked. DO NOT allow material to contact humans, exposed food or food utensils. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers securely sealed when not in use. Avoid physical damage to containers. Always wash hands with soap and water after handling. Use good occupational work practice. Empty containers may contain residual dust which has the potential to accumulat following settling. Such dusts may explode in the presence of an appropriate ignis source. Do NOT cut, drill, grind or weld such containers			Alcohol resistant foam. Dry chemical powder. BCF (where regulations permit).	
Prevent, by any means available, spillage from entering drains or wa course. Use water delivered as a fine spray to control fire and cool adjacent area. DO NOT approach containers suspected to be hot. Cool fire exposed containers with water spray from a protected locat if safe to do so, remove containers from path of fire. Equipment should be thoroughly decontaminated after use. Unusual fire and explosions hazards: Emits toxic fumes under fire conditions 6. Dangerous Products of De	composition	No data	available
Dangerous Reactions		COx, NO	Ox when burned
	·	ntilated pl	ace. Store in -20 °C, dry refrigerator.
11. Toxicological Inform	<u>ation</u>		
RTECS Number			N/A
Toxicity			No information available.
Health Hazards			Although ingestion is not thought to produce harmful effects, the material may still be damaging to the
			health of the individual following ingestion, especially
			where pre-existing organ (e.g. liver, kidney)
			damage is evident. In an occupational setting however,
			ingestion of insignificant quantities is not thought to be
			cause for concern.
Potential Hazards			Not available

Reproductive Toxicity:

No information available

12. Ecological Information

No information available.

13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
