Safety Data Sheet (SDS)

Revision Number: 3.0		Last updated March 18, 2021		
1. Product and Company Identification				
Product Name:	5 - TAMRA	A, SE		
	5 - Carboxy	tetramethylrhodamine, succinimidyl ester		
Manufacturer/Supplier:	AnaSpec, In	ic.		
	www.anasp	ec.com		
	34801 Cam	pus Drive		
	Fremont, Ca	A 94555		
	Tel: 510-791-9560			
	Fax: 510-791-9572			
	Email: servi	ce@anaspec.com		
	Kaneka Eur	ogentec SA,		
	Rue du Bois	S Saint Jean 5 4102 Seraing Belgium		
	Tel. +32-4-3	3727400		
	Fax. +32-4-	3727500		
	E-mail info	@eurogentec.com		
	Kaneka Eur	ogentec Helpdesk		
	Tel. +32-4-3	3727665		
Catalog Number	AS-81125,	AS-81125-01		

2. Hazards Identification

Emergency Overview: We do recommend handling all chemicals with caution. Use proper protective equipment when handling chemicals. To our knowledge, the hazards of this material have not been thoroughly investigated.

GHS Hazard Classification: Not a hazardous substance or mixture

GHS Physical Hazards: Not a hazardous substance or mixture

GHS Health and Environmental Hazards: Not a hazardous substance or mixture

GHS Signal Words: N/A

GHS Hazard Symbol/Pictogram: N/A

GHS Hazard Statements: N/A

GHS Precautionary Statements: N/A

Potential Health Effects for:

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give

oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

3. Composition

Ingredients/Components:

Chemical Name: 5 - TAMRA, SE

5 - Carboxytetramethylrhodamine, succinimidyl ester

Molecular formula: C29H25N3O7 Molecular weight: 527.5 CAS-No 150810-68-7

EC-No N/A

4. First Aid Measures

Inhalation:	If dust is inhaled, remove from contaminated area.	
	Encourage patient to blow nose to ensure clear passage of breathing.	
	If irritation or discomfort persists seek medical attention.	
Ingestion:	If swallowed do NOT induce vomiting.	
	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to	
	maintain open airway and prevent aspiration.	

	Observe the patient care	fully.			
	Give water to rinse out r	nouth, then provide liquid slowly and as much as casualty can comfortably			
	drink.				
	Seek medical advice.				
Skin:	If skin or hair contact oc	curs:			
	Flush skin and hair with	skin and hair with running water (and soap if available).			
	Seek medical attention in event of irritation.				
Eyes:		product comes in contact with the eyes:			
Lyes.	Wash out immediately with fresh running water.				
		Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the			
		Is by occasionally lifting the upper and lower lids.			
	If pain persists or recurs seek medical attention.				
	ting Measures				
Extinguishin	g media:	Water spray or fog.			
		Alcohol resistant foam.			
		Dry chemical powder.			
		BCF (where regulations permit).			
		Carbon dioxide			
Special firefi	ghting procedures:	Alert Emergency Responders and tell them location and nature of			
		hazard.			
		Wear breathing apparatus plus protective gloves.			
		Prevent, by any means available, spillage from entering drains or water			
		course.			
		Use water delivered as a fine spray to control fire and cool adjacent			
		area.			
		DO NOT approach containers suspected to be hot.			
		Cool fire exposed containers with water spray from a protected			
		location.			
		100000			
		If safe to do so, remove containers from path of fire			
		If safe to do so, remove containers from path of fire.			
		If safe to do so, remove containers from path of fire. Equipment should be thoroughly decontaminated after use.			
Unusual fire	and explosions hazards:

	Always wash	hands with soap and water after handling.	
		cupational work practice.	
		ners may contain residual dust which has the potential to accumulate	
		tling. Such dusts may explode in the presence of an appropriate	
	ignition source		
	Do NOT cut,	drill, grind or weld such containers	
PPE Use personal		protective equipment	
7. Handling and Stor	age		
Store at 4 °C desiccate	ed and protected from	light. Store away from oxidizing agent.	
8. Exposure Controls	/ Danganal Protection		
Engineering controls	Local exhaust ventilation is required where solids are handled as powders or crystals; even when particulates are relatively large, a certain proportion will be powdered by		
	mutual friction.	schould be designed to mayout accomplation and as simpulation of	
	particulates in the	n should be designed to prevent accumulation and re-circulation of	
	1	exhaust an adverse concentration of the substance in air could occur,	
		ion should be considered. Such protection might consist of:	
		spirators, if necessary, combined with an absorption cartridge;	
		rs with absorption cartridge or canister of the right type;	
	(c): fresh-air hoods		
Build-up of electron grounding. Powder handling of additional protections. Air contaminants		static charge on the dust particle, may be prevented by bonding and	
		quipment such as dust collectors, dryers and mills may require	
		on measures such as explosion venting.	
		generated in the workplace possess varying "escape" velocities which,	
		the "capture velocities" of fresh circulating air required to efficiently	
		ve the contaminant.	
PPE	Use personal prote	ctive equipment	
9. Physical and Chem	ical Properties		
Physical State	N/A		
Odour	Not available		
Solubility in Water	Not available		
Specific Gravity	Not available		
рН	Not available		
Boiling Point	Not available		
Melting Point	Not available		
Flash Point	N/A		
Vapor Pressure:	N/A		
Vapor Density:	N/A		
10. Stability and Read	<u>etivity</u>		
Thermal Decomposition		No data available	
Dangerous Products of Decomposition		No data available	
Dangarous Pagations		COv. NOv. vibon humand	

COx, NOx when burned

Dangerous Reactions

Keep container tightly closed in a dry well-ventilated place. Store in 4°C refrigerator.

11. Toxicological Information

RTECS Number	N/A
Toxicity	No information available.
Health Hazards	Although ingestion is not thought to produce harmful effects, the material may still be damaging to the health of the individual following ingestion, especially where pre-existing organ (e.g. liver, kidney) damage is evident. In an occupational setting however, ingestion of insignificant quantities is not thought to be cause for concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity:

No information available

12. Ecological Information

No information available.

13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

AnaSpec Inc.

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
